**Detailed Action**

***Election/Restrictions***

1. Applicant's election with traverse of the requirement under 37 C.F.R. 1.143 for the reasons given in the reply filed on 19, October 2005 is acknowledged. The traversal is on the ground(s) that the field of search for Group I and Group II is co-extensive. This is not found persuasive because the class of Group I is 360/126, and the class of Group II is 29/603+.
2. The requirement is still deemed proper and is therefore made FINAL.
3. This application further contains claims directed to the following patentably distinct species of the claimed invention:
  - Species 1, which is drawn to figure 4.
  - Species 2, which is drawn to figure 5.
  - Species 3, which is drawn to figure 6.
  - Species 4, which is drawn to figure 14.
4. Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, no claims are generic.
5. Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Art Unit: 2653

6. Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).
7. Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
8. To be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
9. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
